## Start Planning Now for International Update Your Resume Month

The ninth annual **International Update Your Resume Month** is this September. Career Directors International is posting 75 days of resume writing tips on the [CDI Twitter page](#).

Resume writers (you do not have to be a member of CDI to participate) can download banners [here](#) to promote the idea that job seekers should keep their resume updated. You can use the banners to link to your own websites. (CDI members have access to promotional campaign materials.)

Now is a great time to send out your news releases on this topic to your local media.
